EVENT OVERVIEW

Do you think you and your colleagues have what it takes to beat the world's most belligerent boss?! Can you thwart your peers to be the team that gets hired not fired?

Inspired by the highly successful BBC show 'The Apprentice', this topical event is a brilliant way to test teamwork in a fun and unique environment.

The Apprentices as a team-building event is a light-hearted way to inspire your teams to think out of the box and look at business differently. We use several different themed tasks, all of which draw upon different elements of creative teamwork. They each encourage great levels of innovation and lateral thinking, especially when you know you've got to cut it in the boardroom!

FUN is the key ingredient here. We recreate the well know 'boardroom' with all the tension and music, just to add some realism. The tasks are all about everyone being involved and feeling free to express their ideas and talents. One thing we promise...you will be amazed at what they come up with!

THE APPRENTICES

WHAT HAPPENS ON THE DAY

Throughout the day, you and your team will be set challenging and fun business tasks to help you become the ultimate Apprentice! Example activities include:

- Gift of the Gab: Armed with a list of items and a shoe-string budget teams will embark on a bartering mission. This is a great activity if you wanted to add a little charity twist to the event. All items bought in the Gift of the Gab activity are donated to a local homeless charity, or to a charity of your choice.
- Shopping Channel Showdown: Have you ever thought QVC presenters have an easy job? Now is your chance. Teams will be given a selection of items, and its down to you to persuade our audience to place orders.
- On the Box: You will be given just 45 minutes to make a 30 second advert for a designated product that we will give you.

Once completed, the experts will confer and declare one of the teams the winners, who will receive a lavish 15 minute treat! The other teams however are hauled into the boardroom to fight it out in the effort not to hear the immortal phrase: "You're fired!". Of course those who are fired won't be sent home early in a black cab with a cameraman to record the tears! Instead you will be sent back into the next task to try and redeem yourself and win back some all important points!

WHAT OUR CLIENTS SAY

"Everyone really enjoyed."

"Would highly recommend!"

"Highly recommend!"
